Pink Kush Active Ingredients:
 Total THC 22% w/w, Total CBD <1% w/w

FLOWER CHARACTERISTICS

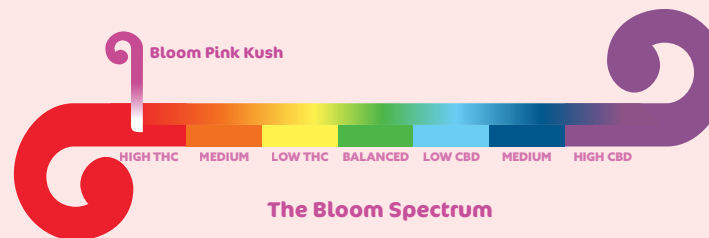

Bloom Pink Kush, is a high THC variety that originated in the Pacific Northwest, related to an earlier variety OG Kush.

It is named for the Pink hairs (Pistils) that are notable during flowering, though this colour fades during the drying process.

The resulting expression of this variety is commonly described as approximately 80/20 Indica to Sativa resulting in a Heavy Indica effect.

Note: Total terpene quantity and ratio varies by batch and is "uncontrolled".

AROMA

Earthy, peppery aroma with hints of sweetness.
